LOCAL NOTICES.

"Portraits Glasses."
This is a new style of picture now being produced by Wm. Winter, the artist, of this city. These pictures are creating much interest in all the principal Eastern and Western cities, being altogether new. They are unlike photographs, being raised and beautifully enameled over the entire surface, soft in tone, but distinct in the lights and shades. No one who sees them fails to admire them, or to give the artist an order. We have been shown a number of pictures of well-known ladies and gentlemen of the city, and have no hesitation in pronouncing them perfectly splendid. We would therefore advise all who take interest in such matters or desire pictures, to call upon Mr. Winter at his gallery and examine his work in this new branch of the shadow-capturing art.

—Yesterday about 1 o'clock, a colored man named John Harris and a white man got into an altercation at the corner of Sixth street and Commercial avenue. The white man, whose name we could not learn, struck Harris in the leg with a pen-knife, but before any further injury was done the men were separated.

—Patrick McGee was arrested on Tuesday night by Officer Sargent for being drunk, and lodged in the calaboose until yesterday afternoon. He was then taken out and given a trial by Judge Bird and fined two dollars and costs. He was returned to the jail, where he will remain for three days.

—Mr. Charles A. Damon, traveling agent and correspondent of the St. Louis Globe-Democrat is in the city. He will call upon our business men. If he asks them to subscribe, we hope they will gratify him; but if he solicits job printing, we are sure they ought to say to him: "Nay," and send their orders to the BULLETIN office.

—From present indications, the party to be given by the young men at the St. Charles hotel on Friday evening, promises to be a big and very pleasant affair. Quite a number of invitations have been sent to the friends and acquaintances of the managers outside of Cairo, which will, it is said, bring several couples of the popular young ladies and gentlemen from Jonesboro and Mound City.

—Reeve, the celebrated end man, made a strong run in the city for treasurer on Tuesday. He left the city with a majority of twenty-eight over Hely and twenty-two over Redman, while Harrell was completely out of the race. It is the opinion of many that Reeve will be defeated by both Redman and Hely, through the county, while others think that Hely will come out of the contest ahead of the party.

—At the meeting of the council held on Tuesday evening, that body passed an ordinance prohibiting the Cairo & Vincennes railroad company from running an engine over that portion of their track between Twentieth and Second streets, between the hours of 7 a. m. and 6 p. m., the penalty for each and every violation of the ordinance being not less than fifty nor more than two hundred dollars.

—On election day, while Constable John Gladney was engaged in pointing out to the colored citizens why they should cast their ballots for Reeve, some one slipped a piece of red cloth into his coat pocket, in which was wrapped three small gold shirt studs and a collar button. The studs have the letter "G" on each of them, and are thought by Mr. Gladney to be stolen property. The owner can get them by calling upon the officer.

—The fourth lecture of the Ladies' Library Association course was delivered at the Methodist church on Tuesday evening by Prof. Alford. The subject of the lecture was "Telegraphy." The Professor gave a brief history of the various methods of telegraphing used by different peoples of the world down to the period of the introduction of the electric telegraph; he gave an instructive account of this discovery and spoke in eloquent language of the revolution which it caused in the business, scientific and literary world. The lecture throughout was extremely interesting and instructive, and was listened to by a very appreciative audience.

—We miss him. He has removed from near us, and now will never again, in the night time, make our sad soul glad with the delightfully peculiar mournful music he was wont to manufacture in the room inhabited by him so blissfully beneath our editorial den. Almost every evening, after supper, when weary with the intellectual work of mastering a chapter of a serial story, he would take his flute and blow on it, until, as Copperfield said of Mr. Mell, we almost thought he would gradually blow his whole being into the large hole at the top, and ooze away at the keys. But he didn't. Enough of him remained to remove, with his flute, to another part of the city. We shall never hear, blowing upon a flute, his mournful

like again. In which assurance we rest content, thankful to the Lord for his kindness in giving us the opportunity to truthfully make this casual remark.

—We clip from the Vincennes Sun of recent date the following: "Rev. Dr. Thayer, of this city, is now gathering the material and preparing a lecture upon the 'Great Centennial Exposition,' where the Nations of the earth will display the richest products of their realms. The lecture will show the plan of operations, nature, extent, variety, resources and splendors of that greatest of the world's expositions. The facts given will be of the most interesting character, exhibiting clearly the immensity and grandeur of the American Exposition. As an orator and lecturer, Dr. Thayer stands second to none in this State, and we are glad to know that he has entered into the centennial cause, as he can be of inestimable benefit to it. Dr. Thayer does not propose to deliver this lecture at Vincennes only, but in different parts of this State and others. We are sure that his many admirers in this city will await with impatience the completion of the lecture, and long to hear its delivery. We have not been advised yet as to the date of the lecture, but it will be duly announced." Dr. Thayer has a large number of friends in this city. Cannot they induce the gentleman to deliver the lecture here?

PARTICULAR NOTICE.

We are now putting into THE BULLETIN OFFICE a new boiler, and preparing to also put into it new press machinery.

Until this work is done (for about ten days), we will have to labor at a great disadvantage. Therefore, we ask our patrons to be satisfied, for the time being, with the best we can do under the circumstances.

When we shall have completed the improvements we are now at work upon, and have in contemplation, THE BULLETIN OFFICE will be, without doubt, the most complete printing office in the West outside of the great cities, and will be as well prepared as any office in the whole country to do the kinds of printing demanded by this community.

THE BULLETIN has labored, during many years, in the interest of Cairo and Southern Illinois, and has done so without fear or favor. It has never, for an instant, truckled to any ring or clique, but has, even at the sacrifice of much patronage, advocated every enterprise of importance to the city's weal. It therefore deserves well of the people of Cairo and Egypt, and is confident that it will receive the patronage of its old and of many new friends. Circulating as it does, in its daily and weekly editions, through the city—into the house of every reader in Cairo—and through most of the counties of Southern Illinois, Mississippi county, Missouri, and Ballard county, Kentucky, it furnishes to the business men who wish to sell in this part of the Mississippi Valley a valuable advertising medium.

To our business men, and the public generally, we are prepared to offer THE GREATEST BARGAINS IN JOB PRINTING. With new type, and the best presses run by steam, we are enabled to do work neatly and promptly, and at lower prices than any other printing office in the Mississippi Valley.

Connected with our office is a complete BOOK BINDERY, in which all kinds of Binding and Ruling are done, in the best style at the lowest figures.
